

TOBY BEEVERS

Director of Data & Technology

PROFILE

Dynamic and results-driven professional with extensive experience in data analytics, product ownership, business analysis, strategic leadership at the director level, mergers and acquisitions, and data migrations.

Proven track record of driving data-driven decision-making, leading cross-functional development teams, and delivering innovative solutions that align with business objectives.

Currently pursuing a degree in Computer Science with a focus on Machine Learning and Artificial Intelligence, enhancing technical expertise to develop advanced, data-driven strategies that support business growth and digital transformation.
